Accessibility compliance

Unit Testing

EXPERIENCE

FRONT END DEVELOPER, Toronto, ON

Prepr, July 2023–December 2024

- Contributed to the development of a React-based application from scratch, collaborating closely with senior developers to meet project milestones.
- Resolved 15+ bugs** daily, contributing to a **40%** reduction in reported issues during the first quarter.
- Enhanced performance by building reusable components, reducing page load times by 25%.
- Improved accessibility by adhering to WCAG 2.1 standards, helping achieve a 95% Lighthouse score.
- Consistently received a 4.5/5 rating in quarterly peer performance reviews for code quality and teamwork.
- Implemented responsive design principles to ensure cross-platform compatibility of webpages.
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.
